# Nordika

The inspiration comes from the cool simplicity of Scandinavian design and landscape. The plate is a hybrid between a coupe and a rim, a large flat centre and narrow steep rim. This provides the maximum area for presenting food and for easy handling of the plate, a lovely combination of beauty and functionality.

# Tramontina Boards

Our Tramontina wooden boards deliver professional quality and long-lasting performance for commercial kitchens and hospitality venues. Manufactured from sustainably sourced teak wood and coated with mineral oil, these boards combine strength with food presentation appeal.

### Product Care:

To ensure long-lasting performance and preserve the natural finish of Tramontina wooden boards, please follow these product care guidelines:

- Wash before first use and rinse thoroughly.
- After each use, clean with warm water, mild detergent and a soft sponge; dry immediately with a clean cloth.
- Store in a well ventilated area, avoid enclosed cupboards or drawers.
- Do not wash in a dishwasher or use abrasive pads such as steel wool.
- Do not soak or immerse the board in water.
- Avoid drying in direct sunlight or leaving near heat sources or damp sinks.
- Do not stack boards while wet.
- Do not place in ovens, refrigerators or freezers.

# SMART RACK

## The Perfect Washing & Sanitary Storage System

Glassware stays clean when in storage, therefore no need to re-wash before use. Open outer wall is closed & keeps out pollutions, such as dirty water, viruses, insect and pest, contaminant, dust and dirty hand. Clean glassware would need to be washed again after being polluted, it wastes time and money.

### Choose the correct rack

- Place your glass (stemware or tumbler) face down on the below diagram to determine the number of compartments.
- Measure the maximum height of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.
- Select your preferred coloured base rack.

		Number of Compartments (Max Width)				
		49 Compartment (Max Width 6cm)	36 Compartment (Max Width 7.2cm)	25 Compartment (Max Width 8.7cm)	16 Compartment (Max Width 10.9cm)	9 Compartment (Max Width 14.8cm)
Max Height	9cm	AMB-4909** £35.79	AMB-3609** £34.43	AMB-2509** £33.41	AMB-1609** £32.35	AMB-0909** £32.56

# Ceramic product benefits

**microwave**  
dishwasher safe  
**oven proof**  
freezer safe  
**craze proof**  
strength  
**glaze durability**

## Microwave Safe

All plain white products are completely safe in any microwave oven. Products with metallic decoration however should not be used in microwaves.

## Dishwasher Safe

All products are resistant to attack by dishwasher detergents and have been tested to many thousands of cycles.

## Oven safe

Our Ceramic bodies are fired at very high temperatures. This makes them oven proof, exceeding the 180 degrees Celsius temperature difference laid down as the European standard.

## Freezer Safe

All products can be used in any freezer.

## Craze Proof

The body recipes and manufacturing processes utilised in the production of products means they are completely vitrified and therefore totally impervious to water making all items craze proof and very hygienic to use.

## Strength

Porcelite products are extremely strong, far exceeding European guidelines for catering ceramics (BS 4034). Both carry a five-year guarantee against edge chipping (on selected items).

## Glaze Durability

All products have glazes that have been formulated to withstand the rigours of the catering environment. They will not stain and are resistant to metal marking and abrasion in normal usage.

# Product care information

ceramic  
acacia wood  
cutlery  
melamine  
glass

## Ceramic

All ceramic products are suitable for machine dishwashing.

It is important that the manufacturers washing guidelines be followed at all times. Excessive rinse temperatures i.e. above 60 degrees Celsius and overdosing of detergent will cause damage to the glaze surface.

If removing food residue prior to washing a plastic scraper should be used to avoid damaging the glaze surface. Never use metal utensils or cutlery to clear plates as this can cause metal marking.

Cutlery should never be washed in amongst crockery and specialist cutlery baskets should be used at all times. Do not machine wash crockery with other metal objects such as baking sheets and pans as this can cause metal marking.

Use rubber or plastic mats on stainless steel surfaces and shelving in order to reduce the potential for metal marking.

## Acacia Wood

Acacia wood is not suitable for washing in commercial dishwashers.

The appearance of the product can be maintained by regularly wiping the surface with vegetable oil.

Under no circumstances should Acacia wood be allowed to soak in water as this will lead to the product warping and splitting.

The product should be hand washed in warm soapy water and dried immediately. As wood is a natural product its surface will mark over a period of time.

## Cutlery

All cutlery can be washed in a dishwasher.

Never store cutlery in a damp atmosphere as this will cause corrosion. Cutlery should also never be left to soak prior to dishwashing.

Cutlery should be washed as soon as possible after use, if left dirty certain substances in food such as acids and fats can cause corrosion.

Cutlery should be washed in an upright position with the head in an upwards position, in specialist cutlery baskets. Do not overfill cutlery baskets as this restricts water flow during the cleaning process.

Once washed cutlery should be immediately wiped with a clean towel or dried using a cutlery polisher. This will remove any salt residues left after the washing process and prevent corrosion and pitting.

## Melamine

All Melamine products can be cleaned in a dishwasher.

Melamine products are not suitable for usage in ovens or microwave ovens.

Do not use abrasive detergents with bleaches, wire scourers or metal implements to clean melamine products as this will scratch the products surface.

Melamine products are suitable for Bain Maries.

Designed to operate in temperatures from -30 to +70 degrees Celsius.

## Glass

All glasses can be washed through a commercial glass washer.

A non-caustic detergent must be used as caustic detergents can damage the surface of glasses and make them appear dull.

Always wash new glasses prior to their first usage.

Never wash glasses at a temperature of above 60 degrees Celsius as higher temperatures can cause debris to be baked onto glasses. Do not put cold liquids into hot or warm glassware as this can cause glasses to crack, it is also advisable to warm glasses prior to filling them with hot liquid by running them under a hot tap.
